Conversations with My Daughter Who killed George Tiller, dad?

Monday June 22nd, 2009

T: Who killed George Tiller, dad?

Dad: Who is George Tiller?

T: I don't know...she said (*on the Radio*) – that someone killed George Tiller.

Dad: Oh George Tiller who was a doctor in Kansas? He was a doctor who performed late term abortion.

T: What is an abortion?

Dad: You know how babies live and grow in their mother's belly?

T: Yes dad, of course I know.

Dad: Well, a normal period of time for the baby to develop in mommy's belly is nine months – right?

T: Yes!

Dad: Sometimes a mother cannot hold the baby because of a medical reason or other complicated reasons – you know... complications...

T: What is a complication?

Dad: Personal problems, difficulties of various sorts...complicated stuff – you know? Very complicated stuff – things we don't know...

T: Oh!

Dad: Then the mother gets an abortion. The mother aborts the development of the baby; she stops the baby from growing in her belly.

T: So the baby dies?

Dad: Yes honey. The baby dies. So, Doctor Tiller was a Physician who performed this kind of operations.

T: Who killed Doctor Tiller?

Dad: I heard that an anti abortion activist killed him.

T: It's sad what he was doing but still it's wrong that someone killed him.

Dad: That is very true, and I agree with you.

T: What was his name?

Dad: I heard that his name was Scott.

T: Dad, I don't wanna talk about this anymore!

Dad: Okay! Let's talk about something else.
